

Junior Software Developer (m/f/d) – Application Linux / C++

Our Passion - Be a part of it!

Originally born out of a research project, indurad has been developing innovative sensor solutions for the world-leading raw materials industry since 2008. From our headquarters in Aachen, our team of 150 fantastic employees ensures that our high-quality solutions contribute to safety and reduced greenhouse gas emissions globally in the bulk material and raw materials industry.

indurad combines the dynamics of a start-up with the energy and ideas of a large corporation – making us truly unique! We are a diverse team of talented, innovation-driven individuals focused on making positive changes on a large scale.

But there's still something missing – and that's you!

We are looking for a **Junior Software Developer (m/f/d) – Application Linux / C++**, who will support our software team at our headquarters in Aachen as soon as possible.

Your passion

- You develop solutions and products in C++ under Linux.
- In direct coordination with the customer, you independently handle customer projects—from requirement analysis to acceptance.
- We care not only about the development of our products but also about yours: That's why you coordinate your developments with a dedicated team.
- Optionally, you can perform international commissioning if interested.

Your skills

- The position requires a completed degree in computer science or a comparable qualification
- Additionally, you should have good knowledge of C++
- It would be advantageous if you have already gained initial professional experience in software design, working with existing codebases, and the interaction of software components
- You bring joy and ideally knowledge in technologies such as Linux, network technology (Ethernet, IP), Python, QT, OpenGL, and virtualization
- You feel comfortable in an international environment: You have good English skills and are not hesitant to apply them

You deserve it!

- Early bird or night owl – thanks to home office and flexible working hours (full-time or part-time), you can tailor your workday to your preferences.
- Family time is of great importance to us, and we live that value: in addition to our family-friendly work schedule models, we cover the childcare costs for your child/children – whether it's kindergarten, a day care provider, or family care.
- A unique workplace: centrally located yet surrounded by greenery – our location in the Aachen Drehturm (Aachen Tower) creates a special working atmosphere.
- We offer you a comfortable workspace: bright, modern facilities, ergonomic equipment, beverages, a well-stocked fruit basket, various snacks, free parking, and ample room for initiative and development opportunities – all of these are important to us to ensure you feel completely comfortable!

- Direct access to management and supervisors, open communication, a culture of mutual appreciation, and a relaxed dress code are as important to us as a "du" / "you" (informal) culture. An attractive salary package is a matter of course for us. Additionally, you benefit from various subsidies, such as company pension plans, a business bike, or a subsidy for a job ticket.

Perfect Match?

We want to make it easy for you! Our recruiting expert, Bianca Just, is looking forward to receiving your resume (max. 5 MB) along with your salary expectations and desired start date. You can email them to personal@indurad.com.
