

Senior Software Developer (f|m|d) - Application Linux / C++

Originally emerging from a research project, indurad has been developing innovative sensor solutions for the global leading raw materials industry since 2008. From our headquarters in Aachen, our team of 150 fantastic employees ensures that our high-quality solutions lead to more safety and reduced greenhouse emissions in the bulk and raw materials industry around the world.

indurad combines the dynamics of a start-up with the energy and ideas of a large corporation – that's what makes us unique! We are a diverse team of talented, innovation-driven individuals focused on making a positive impact on a large scale.

But there's still something missing – and that's you!

We are looking for a **Senior Software Developer (f|m|d)** to join our software team at our headquarters in Aachen as soon as possible.

What can you expect?

- You develop solutions and products in C++ under Linux
- In direct coordination with the customer, you will handle customer projects independently - from requirements analysis to acceptance
- Not only the development of our products is very important to us, but also yours: That's why you coordinate your developments together with a dedicated team
- You are enthusiastic about the further and new development of our solution portfolio
- Optionally, you can carry out international commissioning if you are interested

What should you bring?

- The position requires at least 3 years of professional experience as a software developer or in a comparable position
- You should also have very good knowledge of C++
- Also very important to us: you are highly flexible and able to tackle many different tasks
- You enjoy and have experience in dealing with customers as well as in software design and working with existing code bases under Linux, network technology (Ethernet, IP), Linux, Python, Qt, OpenGL, machine learning, algorithms, signal processing and numerics
- You feel comfortable in an international environment: You have a good command of English and are not afraid to use it.

What do we offer you?

- An attractive salary package is a given. Additionally, you will benefit from various allowances, such as a company pension plan, business bike, or a subsidy for your job ticket.
- 30 days of vacation and up to five additional days off through flexible working hours.
- Whether you're an early bird or a night owl – thanks to flexible working models (flexitime), you can design your workday to suit you.
- With us, you can expect a diverse and challenging range of tasks in an international project environment.
- Family time is especially important to us, and we live that every day: In addition to our family-friendly working hours, we cover the childcare costs for your child/children – whether it's a kindergarten, daycare, or family care.
- We offer you a workplace with a feel-good factor: bright, modern spaces, innovative tools, ergonomic equipment, drinks and snacks, free parking, and plenty of room for initiative and personal development – all of this is important to us so that you feel completely comfortable!
- Direct access to management and supervisors, open communication, a valued team atmosphere, and a relaxed dress code are just as important to us as a lived "you" culture.

Perfect Match?

We want to make it easy for you!

Our recruiting expert Bianca Just looks forward to receiving your resume (max. 5 MB) with your salary expectations and desired start date via email at job@indurad.com or through direct application via our application form.
