

Working student (f|m|d) – Software

Our Passion - Be a part of it!

Originally as a research project, indurad has been developing innovative sensor solutions for the world's leading raw materials industry since 2008. From our headquarters in Aachen, our team of 150 fantastic employees ensures that our high-quality solutions lead to greater safety and lower greenhouse emissions in the bulk solids and raw materials industry around the globe. indurad combines the dynamism of a start-up with the energy and ideas of a large corporation - that's what makes us so unique! We are a diverse team of talented, innovative people focused on making positive change happen on a large scale.

But one thing is missing – and that's you!

We are looking for **working students (f|m|d)** to support our software team at our headquarter in Aachen as soon as possible.

What to expect

- You'll work on exciting software projects in the bulk material and raw materials industry.
- You're passionate about data analysis, algorithms, hardware-in-the-loop and software-in-the-loop testing, or software architectures. Depending on your interests, we'll find the right area for you.
- You'll support the ongoing development of our internal tools to keep them state-of-the-art.
- Integration and testing processes will become your specialty.
- We're looking for bright minds: you'll contribute your own ideas for optimization.

What should you bring

- You're currently studying computer science, electrical engineering, mechanical engineering, or a related technical field.
- Through internships or personal projects, you've already gained solid skills in one or more of the following areas: Python and/or C++ (ideally including C++20).
- Ideally, you have some basic experience with Linux.
- You work independently, take initiative, and enjoy collaborating in a team.
- You feel comfortable in an international environment: you have strong German skills and good command of English – and you're not afraid to use them.

What we offer you

- Early riser or night owl - Thanks to home office and flexible working time models you can organise your working day yourself
- You will become part of our team and receive direct and professionally sound training and support
- We offer you a workplace with a feel-good factor: bright, modern premises, ergonomic equipment, drinks, free parking and enough space for your own initiative and development opportunities - all this is important to us so that you feel completely at ease!
- Direct lines to management and superiors, open communication, respectful interaction and a relaxed dress code are just as important to us as a lively "you" culture

Perfect Match?

We want it to be uncomplicated for you! Our recruiting expert Bianca Just looks forward to receiving your CV (max. 5 MB), including your salary expectations and preferred starting date, by email at job@indurad.com or via **direct application** through our application form.
