

Working Student - Technical Documentation (m|f|d)

Our Passion - Be a part of it!

Originally established as a research project, indurad has been developing precise sensor solutions for the mining and raw materials industry since 2008, serving one of the world's most important sectors. As Hexagon Mining's Radar Solutions division, indurad is part of Hexagon, a global leader in measurement technologies, combining technological innovation with a worldwide network and extensive industry expertise. From our headquarters in Aachen, around 150 dedicated employees develop high-quality solutions that help customers in the bulk materials and raw materials industries worldwide improve productivity, quality, safety and sustainability, including reducing greenhouse gas emissions.

indurad combines the dynamism and agility of a technology start-up with the strength and opportunities of an international technology group. Our diverse, talented and innovative teams share the goal of driving sustainable, positive change in the mining and raw materials industries.

But there is still one thing missing - you!

We are looking for a **Working Student - Technical Documentation (m|f|d)**, to support our team in Resource Optimisation at our headquarters in Aachen at the earliest possible date.

What can you expect?

- You will convert existing documents into standardised Hexagon RDS documents in line with Hexagon templates and brand guidelines.
- You will review technical documents for accuracy, consistency, structure and language quality.
- You will support the creation and further development of technical documentation, including operating instructions, user manuals and data sheets.
- You will work closely with product specialists and engineers to gather, review and prepare technical content.
- You will manage technical documentation in the relevant publishing tools and repositories, coordinate technical reviews and incorporate feedback.

What should you bring?

- You are studying Technical Communication, Human-Technology Interaction & Communication (MTIK) or a comparable technical degree programme.
- You enjoy presenting complex technical topics clearly, understandably and in a way that meets the needs of the target audience.
- You are confident using standard MS Office applications; knowledge of Adobe FrameMaker and SharePoint is an advantage.

- You have a structured, careful and detail-oriented approach to work.
- You feel comfortable in an international environment, have a very good command of English and are confident using it in your day-to-day work.

What do we offer?

- Depending on your experience and qualifications, we offer a gross hourly wage of between EUR 15 and EUR 17 for this position.
- Early bird or night owl? Thanks to flexible working arrangements, you can organise your working day to suit you.
- You will become part of our international team and receive direct, professional onboarding and support.
- We offer a workplace designed to make you feel comfortable: bright, modern offices, ergonomic equipment, drinks, free parking and plenty of freedom to take initiative and develop. All of this matters to us because we want you to feel completely at ease.
- Direct access to management and supervisors, open communication, a respectful working environment and a relaxed dress code are just as important to us as our informal, first-name culture.

Perfect Match?

We want to make applying as easy as possible for you!

Our Recruiting Expert Bianca Just looks forward to receiving your CV (max. 5 MB), including your salary expectations and preferred starting date, by email at job@indurad.com or via **direct application** using our application form.
